

Certification Management

Swire Oilfield Services offers a certification management service to reduce manual processes and ensure our customers equipment is always operating to the highest standard and is in compliance with industry regulations.

Through OverVu®, our track and trace solutions software, our customers can have full visibility of the compliance status of their equipment, ensuring a proactive approach that reduces the risk of costly delays and downtime.

Key Services

Certification Storage

- > OverVu can store certification for a wide range of assets and equipment, including offshore containers, lifting equipment and tools

Compliance Visibility

- > A user friendly traffic light system allows users to see the compliance status of all assets based on the number of days to recertification

Recertification Alerts

- > Automated alerts generated through OverVu advise users up to 60 days before certifications are due for renewal

Asset Tracking

- > In addition to storing compliance data, OverVu can allow users to locate their equipment and assets throughout the supply chain, making it easier to coordinate the recertification activities
