

Maintenance

Swire Oilfield Services offers efficient preventative and corrective maintenance, refurbishment and repairs on a wide variety of equipment.

We have custom built facilities and expertise across Europe, Africa, America, Brazil, Australia, South East Asia and the Middle East to support our customers operations.

Key Services

Inspection

- > We offer comprehensive test and inspection services, both on and offshore, for a range of equipment to identify any required maintenance

Preventative Maintenance

- > Scheduled preventative maintenance is essential to ensure uninterrupted operations by proactively identifying and addressing any risks or defects

Refurbishment & Repairs

- > Using our in-house expertise, we offer cost effective and efficient refurbishment and repairs on a wide range of equipment to extend asset operating lives and ensure minimal disruption to operations

Maintenance

Blasting & Coating

- > Our in-house facilities enable us to offer cost effective methods of preparing structures and applying protective coatings to ensure a high quality finish

Documentation Management

- > We can manage all documentation relating to an asset including certifications, inspection and maintenance reports

Service Plans

- > We can manage the certification, inspection and maintenance schedules so that our customers can be assured that their equipment is operating at the highest standard at all times, reducing safety risks and eliminating costly delays

Quality Control

- > Each modification is monitored and reviewed so our customers can be assured that all outputs are to the same high standard and meet industry regulations
